Detailed Action

This is the second Office Action corresponding to amendment filed Sep 18, 2009. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action. The application contains 19 claims.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement, which has been reviewed by the Examiner.

Claim Rejections - 35 USC § 102

Claims 1, 2, 5-9, and 15-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Pomero (French Patent No 2,788,796). Pomero discloses a protecting apparatus comprising a bumper member (1), a structure positioning member (2), joining members (6) defining an opening, and resilient flexible members (3, 4). Note that the bumper member extends about a major portion of the structure (5). As to claim 10, the zones of connection of the joining members are curved.

Claim Rejections - 35 USC § 103

Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pomero. The shape of the resilient members is considered as an obvious matter of engineering choice. Pomero shows them straight but can be made of any other shape.

Allowable Subject Matter

Claims 11-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
